Andreas Hepp's *The Mediated Construction of Reality* will prove to be a hugely influential book, largely delivering on the praise on its back cover. It updates our understanding of how the media affects our extensions in space, time and thought while itself becoming increasingly interconnected internally i.e. across different types of media.

We also talked about Nick's book *The Mediated Construction of Reality*, written with Andreas Hepp, which suggests ways in which we can take proper account of the role which media play in the ways in which we understand the world. In particular, we focused on how data is shaping our experience and understanding of reality.
