What are you waiting for? Scroll to the top of the page and click the "BUY NOW" button to grab your copy now!

"A Beginner's Guide to Coin Collecting" You are standing in the checkout line at the grocery store. Your turn rolls around, you pay the clerk and patiently wait for your change. As she places the change in your hand suddenly your heart leaps to your throat and for an instant you even forget to breath! There in the palm of your hand is what appears to be a "Mercury Dime!" You quickly contain yourself and slip the

Read Book Coin Collecting Guide For Beginners

change in your wallet. When you return home you are able to confirm that you do have a somewhat rare find! The Mercury Dimes were produced on and off during the 20th century and have a market value of \$50 a piece. Aren't you glad you caught the coin collecting bug a few months ago? Okay, maybe that was a bit over the top but make no mistake this story unfolds across the country very frequently. Just a little bit of knowledge and you, too, can learn how to distinguish the occasional rare find. "A Beginner's Guide to Coin Collecting" can give you the information you need to find that rare coin and determine if this is a hobby you would like to pursue. Discover this: Becoming a Numismatic - the fancy word for a coin collector Where to find coins - some places are better than others What you should look for in a coin - shiny isn't always better What are mints and mint marks - master this before you get started What affects the value of a coin - is it all about age? Getting started - learn how to begin without a lot of hassles Grading your coins - learn how or Should you use a grading service - what is your preference? When should you sell - timing is everything Pros and cons of buying at auction - best know who is bidding About commemorative and other special coins - these are specialty coins How and where you can buy bullion coins - limited availability but worth it Detecting counterfeit coins - don't get taken in How to avoid shysters and frauds - yes, they are out there and you need to learn the ropes How to care for your coins - a glass jar just doesn't get it Getting the answers to these and other compelling questions is a must for anyone who is considering coin collecting as a hobby or avocation. Learn all the ins and outs and discover whether this is a hobby you would like to pursue. If you do have a "stash" of coins you've been gathering in a large water jug, today is the day to discover if you have "buried treasure." One click on "A Beginner's Guide to Coin Collecting" and you'll get the answers you need!

- Secrets of how to grade, trade, and preserve coins like the experts
- Current trends in the coin market and how to profit from trading coins

The most complete coin price guide on the market today!

Billed as the "biggest, most useful Red Book ever," the Deluxe Edition measures 7 x 10 inches and has 1,504 pages. The larger size and increased page count combined make the Deluxe Edition five times bigger than the regular-edition Red Book. It prices 8,018 items in up to 12 grades each, with 50,205 individual values and 16,667 auction records covering circulated, Mint State, and Proof coinage. The book is illustrated with 5,753 images. The Deluxe Edition covers American coinage from New England colonial times to the modern day--half cents through \$20 gold double eagles, plus bullion, commemoratives, Proof and Mint sets, significant tokens and medals, error coins, and other numismatic collectibles. It follows the basic structure of the regular-edition Red Book, but each chapter is dramatically expanded with more historical information, more die varieties, detailed grading instructions with enlarged full-color illustrations, specialized advice on strike characteristics and other technical details, market analysis, and valuable guidance on collecting and investing in rare coins. The book's Senior Editor is Kenneth Bressett, Valuations Editor is Jeff Garrett, and Research Editor is Q. David Bowers. A 57-page introduction, "The Story of American Money," is based on the work of the late Dr. Richard Doty, senior curator of the National Numismatic Collection at the Smithsonian. Each year, the new Deluxe Edition will feature an in-depth focus on one or more coin series. The first edition includes a special 364-page section on copper half cents and large cents written by Q. David Bowers, with images, history, diagnostics, and pricing for 832 die

Read Book Coin Collecting Guide For Beginners

varieties, 1793-1857. For federal coins, detailed charts show each mintage; a summary of certified population data; average national retail prices in grades ranging from About Good to high Mint State and Proof; and three or more recent auction records for most coins. Enlarged close-ups of die varieties provide visual guidance. Extensive chart notes give the back stories and additional details on significant coins. "This is the biggest numismatic reference Whitman has ever created," said publisher Dennis Tucker. "Many of the Deluxe Edition's chapters could be standalone books themselves. The section on commemorative coins is 146 pages long. Pre-federal coins and tokens from the 1600s to the 1790s span 56 pages. U.S./Philippine coins of World War II and earlier are given a detailed 30-page treatment. And 364 pages of half cents and large cents are enough to make every reader a smarter buyer and collector." Special appendices include illustrated essays on misstrikes and error coins; rare and collectible numismatic books; bullion values of common-date silver and gold coins; the top 250 coin prices realized at auction; grading standards for U.S. coins; coin cleaning, preservation, and conservation; counterfeit coins in today's marketplace; the dynamics of the rare-coin market; predicting the rare-coin market; and techniques of smart bidding at auction.
