Child and Youth Care across Sectors aims to reflect the changing field by capturing a diverse array of themes and issues through an inclusive framework. In Volume 2, the contributors continue the discussion on sectors and contexts of child and youth care, with an emphasis on giving space and voice to different ways of thinking about and describing the field. Focusing on acknowledging and confronting the complex issues within child and youth care, this new volume includes groundbreaking chapters on pertinent topics from homelessness to immigration, antiracism, African-centred praxis, and Indigenous ways of being. Expanding from the first volume, this text explores additional settings of child and youth care, including hospitals, schools, day treatment programs, and the complicated youth criminal justice sector. As the field of child and youth care continues to evolve, this timely and thought-provoking text will be vital for students, scholars, and practitioners in child and youth care, in Canada and abroad. FEATURES: - Incorporates discussions on Canada's northern provinces and territories,specifically Labrador and Nunavut, in child and youth care contexts and regions typically neglected in the field - Includes chapters centering Indigenous ways of being and thinking, written by Indigenous scholars

Proceed through the Uncomfortable depicts a journey of overcoming obstacles and getting to the other side of your wants. Vonetta Wade, a certified professional life coach, describes her experience of becoming a mother at the age of sixteen and how focusing on providing a better life for her daughter led to her becoming a first-generation college graduate and having a successful career in corporate America. By sharing how she overcame her struggles and her most recent journey of experiencing internal growth and success after becoming an empty nester, Vonetta inspires readers to pivot from living on autopilot to thriving and being intentional while proceeding through fear, uncertainty, and discomfort.This book is for those who are pursuing a better life for themselves; for those who need a boost to gain their self-confidence; for those who have become comfortable and seek the courage to be uncomfortable; for those who are on a journey to love and accept themselves; for those searching for their purpose; and for everyone in between. It's like having your very own life coach to inspire you on your journey.

Periodontal disease is caused by bacterial plaque and is the most frequent reason for tooth loss in adults. It is now well-recognized that certain systemic diseases can affect the response of the periodontal tissues to plaque. Furthermore, certain types of systemic drug therapy can have an adverse effect on the gingival tissues, whereas other drugs with antimicrobial and anti-inflammatory actions may be beneficial to the periodontal tissues. All of these problems are encountered in dental practice, especially those specializing in periodontology. The aim of this book is to document and discuss the effect of various systemic factors and drugs on the periodontal tissues and their response to plaque. This book is aimed at the periodontologist or dental practitioner with a speciality in periodontology. The book is also a useful reference for postgraduate students.

This valuable book dispels common myths about acceleration, reviews social/emotional considerations, and provides tools for effectively determining the most appropriate learning options for gifted students.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exonerated. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

"A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company." - Joan Bolker, author of Writing Your Dissertation in Fifteen Minutes a Day "Humorous, direct, authentic ... a seamless weave of experience, anecdote, and research." - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.
