How To Write A Research Paper On Photography ...

Photographic paper is a paper coated with a light-sensitive chemical formula, like photographic film, used for making photographic prints. When photographic paper is exposed to light, it captures a latent image that is then developed to form a visible image; with most papers the image density from exposure can be sufficient to not require further development, aside from fixing and clearing, though latent exposure is also usually present. The light-sensitive layer of the paper is called the emuls

Photographic paper - Wikipedia

Jared Houdi. 5503. There is much to write about photography until you are challenged to produce your own stuff.
