community and pushed to leave his native town to live as a recluse. Leading a hermit's life, he spends all his time at the spinning wheel. His labor enables him to amass loads of gold which, to his great misfortune, are stolen from him. Amidst his disconsolate existence, fate rewards the poor weaver when a golden-haired little girl comes at his door on a winter's night. Silas decides to adopt the parentless child and names her Eppie after his deceased mother. The lovable girl succeeds in giving meaning and purpose to Silas' life. community. George Eliot's tale of a solitary miser gradually redeemed by the joy of fatherhood. Silas Marner wrongly accused of theft and exiled from a religious community many years before, the embittered weaver Silas Marner lives alone in Raveloe, living only for work and his precious hoard of money. But when his money is stolen and an orphaned child finds her way into his house, Silas is given the chance to transform his life. His fate, and that of Eppie, the little girl he adopts, is entwined with Godfrey Cass, son of the village Squire, who, like Silas, is trapped by his past. Silas Marner, George Eliot's favourite of her novels, combines humour, rich symbolism and pointed social criticism to create an unsentimental but affectionate portrait of rural life. 'I think Silas Marner holds a higher place than any of the author's works. It is more nearly a masterpiece; it has more of that simple, rounded, consummate aspect ... which marks a classical work' - Henry

This is the first comprehensive study in any language of anagnorisis (recognition) - one of the least familiar terms in Aristotelian poetics, yet used to describe one of the most familiar features of drama and narrative fiction. The book traces the history of the term 'anagnorisis' and explores some of the ways in which it continues to be of value as a focus for theoretical reflection. Then, in a series of critical essays, the author analyses examples of recognition plots drawn from French, German, and English literature, including Corneille, Racine and Goethe, Shakespeare, James, and Conrad. Examined thus from many angles, recognition can at last be seen to deserve its place in the limelight, as a topic of the first importance, perhaps the most strictly
