Our fossil fuel-addicted way of life in the United States is killing us. Sometimes it's obvious and jarring, as when vehicles smash into each other or slam pedestrians or cyclists. Other times it's subtler, taking the form of heart failure or a prolonged death from lung cancer due to decades of breathing in toxins in polluted air.

Jessica Mitford, 1963

Only the scathing wit and searching intelligence of Jessica Mitford could turn an exposé of the American funeral industry into a book that is at once deadly serious and side-splittingly funny. When first published in 1963, this landmark of investigative journalism became a runaway bestseller and resulted in legislation to protect grieving families from the unscrupulous sales practices of those in "the dismal trade." Just before her death in 1996, Mitford thoroughly revised and updated her classic study. The American Way of Death Revisited confronts new trends, including the success of the profession's lobbyists in Washington, inflated cremation costs, the telemarketing of pay-in-advance graves, and the effects of monopolies in a death-care industry now dominated by multinational corporations. With its hard-nosed consumer activism and a satiric vision out of Evelyn Waugh's novel The Loved One, The American Way of Death Revisited will not fail to inform, delight, and disturb. "Brilliant--hilarious. . . . A must-read for anyone planning to throw a funeral in their lifetime."--New York Post "Witty and penetrating--it speaks the truth."--The Washington Post

... Here is a whole complex of commercial operations that result in funerals whose expense, display and numbo jumbo are unrelated to any Christian or Jewish tradition and virtually unheard of in any other country today. And there is precise information on what is being done to lower the cost and raise the dignity of burial in the United States.

Josh Slocum and Lisa Carlson are the two most prominent advocates of consumer rights in dealing with the death industry. Here they combine efforts to inform consumers of their rights and propose long-needed reforms. Slocum is executive director of Funeral Consumers Alliance, a national nonprofit with over 90 local affiliates nationwide. Carlson is executive director of Funeral Ethics Organization, which works with the industry to try to improve ethical standards. In addition to nationwide issues, the book covers state-by-state information needed by anybody who wishes to take charge of funeral arrangements for a loved one, with or without the help of a funeral director. More information about the book and related issues can be found at www.finalrights.org .

This book is a study in religion, culture, and social change. Taking the position that death is a cultural event, James J. Farrell examines the historical roots of contemporary American attitudes toward and practices concerning death. Middle-class Victorians tried to assuage their fear by making death appear natural, painless, predictable, beautiful, and ultimately inconspicuous. Scientific naturalism was a crucial catalyst of this transformation. Naturalists redefined death, the medical profession called for the establishment of rural cemeteries, and the sanitary science movement influenced embalming methods and funeral practices. The main part of this work describes and analyzes the convergence of the intellectual and social trends that changed American beliefs and behavior concerning death. The penultimate chapter focuses on Vermilion County, and the development of funeral practices in that specific place. The author uses local sources to add an empirical dimension to the intellectual history that characterizes the rest of the book. -- From publisher's description.

The American Way of Death

This provocative book shows how and in what circumstances Americans give birth. It is not about the miracle of life, but about the role of money and politics in a lucrative industry; a saga of champagne birthing suites for the rich, and desperate measures for the poor. It is a colorful history -- from the torture and burning of midwives in medieval times, through the absurd pretensions of the modest Victorian age, to this century's vast succession of anesthetic, technological, and 3natural2 birthing fashions. And it is a comprehensive indictment of the politics of birth and national health. Explores conventional and alternative methods.

In the "hush harbors" of the slave quarters, African Americans first used funerals to bury their dead and to plan a path to freedom. Similarly, throughout the long struggle for racial equality in the 20th century, funeral directors aided the cause by honoring the dead while supporting the living. Here is their story.

“Decca” Mitford lived a larger-than-life life: born into the British aristocracy—one of the famous (and sometimes infamous) Mitford sisters—she ran away to Spain during the Spanish Civil War with her cousin Esmond Romilly, Winston Churchill’s nephew, then came to America, became a tireless political activist and a member of the Communist Party, and embarked on a brilliant career as a memoirist and muckraking journalist (her funeral-industry exposé, The American Way of Death, became an instant classic). She was a celebrated wit, a charmer, and throughout her life a prolific and passionate writer of letters—now gathered here. Decca’s correspondence crackles with irreverent humor and mischief, and with acute insight into human behavior (and misbehavior) that attests to her generous experience of the worlds of politics, the arts, journalism, publishing, and high and low society. Here is correspondence with everyone from Katharine Graham and George Jackson, Betty Friedan, Miss Manners, Julie Andrews, Maya Angelou, Harry Truman, and Hillary Rodham Clinton to Decca's sisters the Duchess of Devonshire and the novelist Nancy Mitford, her parents, her husbands, her children, and her grandchildren. In a profile of J.K. Rowling, The Daily Telegraph (UK), said, “Her favorite drink is gin and tonic, her least favorite food, trip. Her heroine is Jessica Mitford.”

Assesses the impact of the enormous carnage of the Civil War on every aspect of American life from a material, political, intellectual, cultural, social, and spiritual perspective.
