This practical text provides step-by-step, hands-on instruction in using Harris CareTracker, a fully integrated, CCHIT and ONC-ATCB certified Practice Management and Electronic Health Record (EHR) solution. This unique instructional package combines an engaging, reader-friendly text with online access to the Harris CareTracker system, enabling students to learn the features, functions, and workflows of administrative, practice management, clinical, and billing activities using a live electronic medical record (EMR) program. In addition to connecting essential EHR concepts

## Get Free The Paperless Medical Office Using Optum Pm And Physician Emr

to real-world scenarios and tools, the authors link knowledge and activities to the CEHRS credential, with CEHRS Exam Connections highlighted throughout the text. Chapters emphasize key topics such as patient demographics and registration, appointment scheduling, EMR clinical duties, and administrative tasks including billing and collections. For additional context, numerous applied learning Case Studies provide valuable perspective and feature relevant activities and exercises to help prepare students for professional success in this dynamic, rapidly growing field. The student workbook helps you retain key chapter content. A pared-down version of the comprehensive textbook, the workbooks includes only the step-by-step activities and no other explanations. The activities allow you to practice using administrative, practice management, clinical, billing, and coding functions in the Harris CareTracker tool.

The Billers and Coders workbook helps you understand and remember important facts and information about financial activities performed within the electronic health record. Expanded activities give you extra practice with these challenging topics.

This text explains the "ins and outs" of the popular, online system medical offices use for patient billing and medical records

## Get Free The Paperless Medical Office Using Optum Pm And Physician Emr

management, giving you the confidence it takes to master administrative work in any health care setting. Then, when you access the Harris CareTracker online system, you'll work with live electronic medical records (EMR) to conquer features and functions, and execute important daily tasks such as patient registrations and scheduling, billing and collections, clinical duties, and more. Even better, the second edition offers self-testing features and cases studies to give you practice solving common problems, putting you in the driver's seat, no matter what comes your way -- Provided by the publisher.

The student workbook is design to help you retain key chapter

## Get Free The Paperless Medical Office Using Optum Pm And Physician Emr

content. The workbook is a stripped down version of the comprehensive textbook, and includes only the step-by-step student activities. These activities allow students to focus on how to use Harris CareTracker and provide ample opportunity to practice using administrative, practice management, clinical, billing and coding functions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
