### **Project and programme management - GOV.UK**

Program Management is often interpreted as large Project Management. Project Managers are hired for large programs and tendency is to manage like any other project. Program management needs special skills beyond the science of project management. Roles of Program manager and project manager need to be distinguished.

### **Effective Program Management Practices**

As program management has become a more widely recognized management approach, governments, individuals, and both public and private sector organizations have become interested in frameworks and standards that describe levels of acceptable workplace performance for program personnel. To provide a neutral spine as a basis for comparing standards, the GAPPS has drawn upon existing standards for program management (MSP®, PMI, P2M, ICB3) to identify the most common elements.

### **Standards for Program Management : GAPPS**

Guidance on project management. ISO 21500:2012 provides guidance for project management and can be used by any type of organization, including public, private or community organizations, and for any type of project, irrespective of complexity, size or duration.

### **ISO - ISO 21500:2012 - Guidance on project management**

Project planning standards must take into account the overall project management system, its merits and limitations, define goals of the project, organize the information system with easy identification of project objectives and also plan for bridging a system network to monitor and control the projects efficiently. The more elaborate the project planning standards are, the more effective they will be to enhance the productivity of team members, allowing all project team members to better ...
